

PROJECTS

Our main target is to improve European projects and activities in the fields of vocational and professional training, lifelong learning, formal and informal education, paying special attention to the social area.

Our staff members cooperate with Genoa University. We work together in different pedagogical projects, with new theoretical and practical teaching methods, so evaluating the results of adult training programmes. We believe in European cooperation is an excellent way to develop new and better ideas.

At ENDOFAP we are extremely interested in comparing our vision on systems of adult education with other organisations.

Our Centre is part of an International Community (Opera Don Orione) with facilities and institutes all over the world operating in the field of health and assistance to help poorer and disadvantaged populations.

We are interested in joining other organizations having a similar mission or undertake similar activities.

AREAS and ACTIVITIES

VOCATIONAL TRAINING

- ❖ Seminars, courses, long and short term training programmes for both employed and unemployed people.
- ❖ Consultation and information in vocational training and fund raising for small-medium size companies

- ❖ Workshops and courses for teachers, students, parents.
- ❖ Counselling and psychological assistance service for singles and groups.

About us

ENDOFAP Liguria has been operating since 2000, in Genoa, Italy. We are a certified non-profit association, with exceptional programmes of study and extensive schemes specialized in the social and service sector.

ENDOFAP Liguria is dedicated to the field of adult education (formal and informal) working together with the local University, Institutes and Schools, local and national Institutional Partners, and many professional organizations and associations.

ENDOFAP offers several on-site activities and services but is also co-financed by Public Fund, for individuals (young and old people) and companies as well.

At present we have a small organization with excellent equipment, including modern Personal Computers, Internet Access and everything you need to guarantee good education.

In addition we can also offer comfortable rooms for teachers and students staying in Genoa on a short term basis.

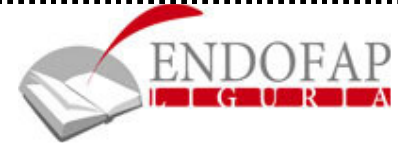

Mission

Our Mission consists of the following:
The promotion, co-ordination and experimentation of vocational training policies, with the aim of integrating these policies into training, education and employment systems

All our services are designed to meet the requirements of each individual be they male or female, young or old, migrants or Italians.....)

"We have one priority in every action or project we take into hand: the promotion of personal and professional training "

For further information about us or our partners and our line of work please visit The ENDOFAP web site.
